Book-tasting with Ms. Palmer

Book-tasting is an event where children "taste" or sample pre-selected books from various genres. This is a fun and interactive way to boost children's excitement about reading and connect them with books from genres they might not

have previously explored. The ultimate purpose is to encourage, excite, and motivate students to become active readers. At the end of the book tasting children will end up with a list of books that they can't wait to read in full and will have extended their palate for books that interest them.
